What is Georgia Fresh For Less?

Georgia Fresh For Less (GF4L) is a program of Wholesome Wave Georgia that encourages federal nutrition assistance (i.e. SNAP, WIC, EBT) beneficiaries to buy fresh, local produce directly from Georgia farmers by doubling the value of their benefits when shopping with participating farmers markets or farmers.

I'm a SNAP/EBT recipient. How do I use the program?

The Statesboro Main Street Farmers Market is an assembly of local growers, artisans, and chefs coming together to provide fresh and locally produced products. They have partnered with the Wholesome Wave Georgia Fresh 4 Less program to provide a matching amount of fruits and vegetables for every EBT dollar spent, with no limit, getting twice as much value for your EBT/SNAP benefits.

Examples:

You spend \$75 on EBT eligible items, such as meat, milk, and eggs. You can then add an equal dollar amount of fruits, vegetables, raw nuts, grits, or food bearing plants to your cart for no extra cost.

OR...

You can make an EBT purchase of only fruits and vegetables, too. Essentially, you'll only pay half. If you have \$30 of fruits and vegetables in your cart, it will only cost you \$15.

When using the Market2Go site, don't forget to write EBT or GF4L in the comments section so that your benefits/payment is calculated correctly!
