

## THE DRIVE-THROUGH PROCEDURE in Statesboro.

- Drive to the right (counter clockwise) all the way around the SCVB, keeping to the outer perimeter and maintaining a tight queue. A volunteer will check you in as you come around the far side of the building.
- Please **display the name(s) for your order(s)** on a windshield **placard** to assist in quick and safe check-in.
- Please **wear a mask** while communicating with market staff.
- Provide access to your vehicle and to the containers you want loaded (bags, boxes, bins or coolers); unlock the back door or the trunk, with containers inside.
- We recommend that you **bring a cooler** for transporting meat, dairy and perishable items. Ice cream melts, even in a short car trip, and our fresh non-homogenized milk is temperature sensitive.
- Wait in your car for the runner to come out with your order and load into your containers. Make sure your name placard is visible.
- If you did not prepay on line with a debit or credit card, please make a check for exact amount when your order is delivered. (You may pay cash in exact amount, but any “change” from cash received will be credited to your account. Use an envelope to label the cash payment with your order name.)
